# Milking Efficiency Support Visit Fact Sheet

Our Milking Efficiency Support visit is aimed at farmers who want to reduce the number of hours they spend in the cowshed each week.

Our Regional Food Safety & Assurance Managers provide, independent advice to help understand potential opportunities to increase milking efficiency.

Once you have registered your interest in a Milking Efficiency visit, our advisors will contact you for a suitable date and time to meet you on farm.

## How does the visit work?

Our Regional Food Safety & Assurance Manager will meet you on farm to observe part milking to identify current practices and make recommendations on where there are opportunities to speed up your milking time.

After the visit you will receive a report detailing what was identified and recommendations.

Our team is committed to supporting you through this service and will ensure the recommendations are clear and if any further support is required.

## We are here to help

If you are interested in a Milking Efficiency visit, contact your **Area Manager** or the **Farm Source Service Centre** on 0800 65 65 68.
